STUDENT VISA

All students must be legally residing in Spain. Remember that the Spanish police can and do ask you to identify yourself and to demonstrate your right to be in Spain. Applying for a student visa to come to stay in Spain for longer than 90 days is usually a very standard process. You simply need to **collect the required documents**, head to the nearest consulate and submit the paperwork.

Free e-mail Consultation 

Note: It is a good idea to **scan your documentation** and email it to yourself, that way you will always be able to access a copy in case of loss or theft.

HEALTH & SAFETY

Understanding the Spanish healthcare system or finding the right doctor can be stressful, especially if you do not speak Spanish yet.

Make sure to be informed on how the Spanish healthcare system works. To help you familiarize with the Spanish public & private healthcare system, we offer you this comprehensive **healthcare in Spain guide** that will help you navigate the Spanish healthcare system.

The Spanish Healthcare 

English Speaking Doctors

If you are looking for an English speaking doctor in Madrid it can get tricky as many Spanish doctors within the public system do not speak the best English, if at all.

Pharmacies in Spain

You will recognize most pharmacies in Madrid (and Europe, for that matter) by the **large green cross above their entry** door which makes them easy to spot. You will find a list posted on the door of every pharmacy showing the nearest pharmacy open.

All students are required to carry their own health care insurance and accident insurance. Coverage is required from the date of departure from their country of residence until their return there. The coverage must meet the requirements established by the Spanish government and Spanish consulate.

E.U. nationals may use the Spanish Seguridad Social through agreements with their social security services at home. The Admissions office will be pleased to help you choose the best type of insurance for your needs. **The University cannot assume responsibility for students who fail to take out adequate medical insurance.** [READ MORE](#)

Hospitals in Madrid & Spain

Hopefully, you will not need to worry about visiting any hospitals during your time in Spain. But if the situation arises and you find yourself in need of medical attention, **it's important that you know which hospitals you can visit and how the visit will work.**

Your decision to visit a **public hospital** versus a **private hospital** depends on the type of insurance you have. If you have access to the public system then you can make use of the public hospitals and public doctors / healthcare centers, however if your treatment is not an emergency then you will need to get a referral from your general practitioner (médico de cabecera) before you can get treated by a specialist. If you have access to the private system via a private insurance then you can make use of private hospitals and private doctors at no extra cost – so long as your insurance covers the treatment that you're interested in.

HOUSING GUIDE

We know that figuring out how to start your housing hunt can be quite confusing. To make it easier for you, **we have compiled a list of the most important information as well as hints & tips below.**

Shared Apartments

The two most popular options to rent a room in Madrid are: Renting a room in a shared apartment or renting an entire apartment in Madrid together with friends.

[Popular Rental Agencies](#)

Student Residence

You usually have the choice to either rent a single bedroom or share with someone else in a double bedroom. Living in a student residence is more costly than sharing an apartment but it puts you in contact with many other like minded peers. Also many student residences will have a library to study, a gym to work-out and chill-out areas to hang out with your friends.

[Popular Residences](#)

Homestay

With homestays you'll have a chance to **practice your Spanish**, to try traditional Spanish foods and to experience other important aspects of Spanish traditions throughout the year. On the other hand, living in a homestay will most likely result in **less independence**. You will need to follow the rules of your host family, which may include curfews or restrictions when it comes to friends visiting.

[Learn about Homestays](#)

Studio Apartments

If you prefer living alone because you enjoy a more quiet atmosphere and independence, then a studio apartment in Madrid for rent might be an option for you. It will however be more costly than sharing a flat and you will have less social connections especially at the beginning. Do keep in mind that these 1 bedroom apartments are not so common in Madrid, making the hunt a bit more complicated.

[Find a Studio Apartment](#)

Our recommendation is to rent a room with a **rental agency**. This way, everything is official, organized and most importantly, you will have a **reliable contact** in Madrid in case you have any questions.

GETTING LEGAL

NIE, TIE, EMPADRONAMIENTO

The NIE card and the TIE card are the most common legal documents that are required by both **EU citizens (NIE)** and **Non-EU citizens (TIE)** who plan to move to Spain. In combination with other documents like the **Empadronamiento** and the **Social Security Number**, the NIE card and the TIE card are important documents that verify your legal status in Spain and should be applied for very early into your time here.

NIE (EU citizens)

The NIE card is officially known as the “Certificado de Registro de Ciudadano de la UE”. As its official name suggests, this is the document that citizens of the European Union (or equivalent) will apply for when moving to Madrid **to work or study for longer than 3 months**.

You can only apply for the NIE or TIE Card from Spain, however you can start looking for appointments dates and collecting the required documents from home. [**READ MORE**](#)

That **NIE Number** you will get on both cards will act as your foreigner’s ID number and will be your key to life in Spain as it will be used when applying for nearly anything. For example, you need a NIE number in Spain for the following:

- **To work**, to be self employed or to start a business
- **To study long-term** in Spain (more than 3 months)

TIE (Non-EU citizens)

The TIE card is officially known as the “Tarjeta de Identidad de Extranjero”. This is the document that all Non-Europeans who are **staying in Spain for more than 6 months** will need to apply for. The card classification will differ depending on the type of visa the applicant applies with – the most common being the student TIE.

- **To open a Spanish bank account** as a resident
- **To contract internet** or a Spanish SIM card (that is not prepaid)

Empadronamiento

The Empadronamiento is officially known as the **“Padrón Municipal de Habitantes”** and is also commonly referred to as just the **“Padrón”**. It’s a general census record of habitants in the city, which allows the municipal government to allocate the right amount of funds and community services to a particular region or neighbourhood of the city (healthcare centres, police, maintenance, etc.). **Once a person is registered, they will officially become a member of the community and their presence in Spain will be verified.** The Padrón has no real effect on a person’s legal status, however the document is required for many subsequent documents that might be required when moving to Spain or to extend time in Spain.

[How to apply?](#)

Social Security Number

The Social Security number is officially known as the **“Número de Afiliación de la Seguridad Social”**. Having it means that you are officially registered as a part of the tax & social security system in Spain and thus you will gain access to many benefits that are a part of the Spanish social system. These benefits include healthcare benefits, social benefits, security and disability benefits, unemployment benefits and other resources that might support you in times of difficulty.

The Social Security number in Spain is required when a person legally living in the country intends to earn money in an official capacity. **You will always need a Social Security Number if you intend to participate in any of the following situations:**

- Being employed at a company
- Being self employed (autónomo)
- Being a student taking on a professional, paid internship
- Being a business owner or business partner

TRANSPORTATION IN THE CITY

Madrid has a very efficient system of both subway and bus lines and you can find full information [HERE](#).

Buses and subway are **less expensive if you buy a 10-ride ticket**. These can be found in the Metro or at the newspaper kiosks. Special discount monthly passes are available for those under 26. If you use public transportation **more than 4 times a day, it is worth your while to invest in the monthly unlimited-use transportation pass**.

There are trains, called “**Cercanías**” that circulate in Madrid and go to suburban towns outside, and interesting places such as El Escorial, Segovia, Toledo and Ávila, with schedules throughout the day. The main stations are **Atocha, Sol, Nuevos Ministerios, Chamartín and Príncipe Pío**.

Subway Map

Although gasoline prices have gone up considerably in the past few years, **taxis** continue to be reasonable and you can also use apps such as **Uber**, **Cabify** or **FreeNow**.

We recommend that you order your personal public transport card online – **ideally about 3-4 weeks before your arrival**. It will save you time, money and hassle. Read the [following guide](#) to know all the details and order yours.

SIM CARD & INTERNET

In general, **getting a SIM card for Spain with one of Spain's mobile operators is quite easy.** You'll also find that it's usually more affordable in comparison with other countries. The hardest part is actually selecting the right SIM card and best Spanish mobile phone operator. The first thing to get clear right away, is to determine whether or not you really do need a SIM card for your time in Spain.

Much like cell phones, Internet at home is a must have for everyone. If you are still on the hunt for a new place to live in Spain, make sure to check if Internet is established before renting a room or apartment. **As contracting Internet for your new home is a big hassle, it's recommendable to look for flats with Internet already established and ideally included in your rent.**

BANKING & MONEY TRANSFER

If you are an international student who is only staying for a few months you might not necessarily need to open a Spanish bank account. That being said, **Non-EU citizens will always save costs by opening one,** as they won't have to deal with all the fees that come with using a foreign card abroad.

Sending money to/from Spain to/from an account outside the European Union can be inconvenient and costly. But if you have no other choice, there are great alternative options to tradition bank transfers that will save both money and time. Learn more about it [HERE](#).

CULTURAL LIFE

General Information

As the capital city, a cosmopolitan city, a business center, seat of government, Spanish Parliament, and residence of the Spanish monarch, Madrid is also the political centre of Spain. The city is characterized by intense cultural and artistic activity and a very lively nightlife.

Tourist Information

In addition to its famous museums, busy streets dotted with all kinds of shops, restaurants with world cuisine or unbeatable nightlife, Madrid will surprise you with its charming, tranquil historic spots, with traditional and family-run century-old bars where friends meet up for a drink, all kinds of neighbourhoods, and cultural centres that offer an alternative type of tourism. Madrid has an authenticity that is hard to match. It is welcoming and diverse. Madrid is, without a doubt, one of Europe's most interesting cities.

Activities

Throughout the semester SIU-Madrid offers a variety of academic, cultural and social activities. These entail visits to places of interest in Madrid and other cities in Spain, field trips to multinational companies, lectures on business and political issues by outside speakers, sports activities and our traditional end of semester graduation ceremony.

Madrid is a vibrant city that boasts tons of fun things to do day and night. From Spanish wine tasting and flamenco shows, to salsa classes and language exchanges you can find anything you seek in Madrid.

You will find all details about our events in the Reception area. The cost of these activities is covered partially by the University and partially by the students. For every event, students signing up must pay a deposit to reserve a place which will be refunded once the student attends and the activity has taken place. Deposits will not be refunded for students who do not show up.

Trips

In addition to the excursions you will be taking with the University as a group, all students are encouraged to travel on their own, taking advantage of all that Spain has to offer.

Studying abroad in Europe will give you the opportunity to explore several countries over the course of just a few months. The cost of air fare ([CLICK HERE](#) to read our travelers guide to booking flights around Europe) **from one European country to another is extremely cheap**, especially if flights are bought a month or two in advance.

The most popular destinations from Madrid are Morocco, Portugal, the Andalucía Region, the Basque Country and the East Coast in general. If you wish to travel as a group in organized trips you can visit the [following page](#).

Eating out in Madrid

Eating out in Madrid is a real advantage and adventure that you will come to appreciate during your stay in Madrid. **Meal time is a very important time of the day for a Spaniard.**

Normal Spanish meal hours don't even begin until 1:30pm for lunch and 9pm for dinner, so you should attempt to gear your stomach accordingly.

The “Menú del Día” is a fixed price which includes 3 courses, beverage and bread. Inexpensive restaurants are found on streets parallel and perpendicular to the general university and downtown areas. Suggested restaurants and cafeterias are included in the www.guiadelocio.com

Sports

Madrid is a passionate city and fitness culture is no exception! Madrid offers a large amount of sports activities both indoor and outdoor, which you can do on a daily basis or whenever it best fits your schedule. **Don't skip your routine during your stay abroad – motivation will get you started and habit is what will keep you going.**

BEFORE ARRIVAL

Student Visa

In order to enter France as a student, non EU-candidates must go to the French consulate of their country and present all required documents included admission letter from Schiller International University to apply for the student visa. For information on the necessary documents that students have to present upon request of a student visa for France, as well as the exact address of the nearest French Consulate from the student's country go [HERE](#). Students can also contact their own embassy in France.

France Visas
Find Out More Here

Please note that students who come to France on a short-stay (tourist) visa, cannot change this to a long-stay visa while in France. **Get your student visa before arriving in France (for non-EU citizens)!**

In Paris

Once you have arrived in France and within 3 month, students are required to **validate their student visa by completing registration process at the French Office** of Immigration and Integration (OFII). The procedure is entirely online:

Click Here

Renewing your visa and getting a “titre de séjour” 3 month prior to the expiration date of your visa, you should connect to the Prefecture website to book an appointment to renew your visa and get a “titre de séjour étudiant” which will be valid 1 year as well.

GUIDE TO PARIS

Student Identity (“I.D.”) CARD

All students are advised to request a student “I.D. “Card at the time of registration. The student should have this card available for presentation upon request by members of the Schiller International University Administration.

A student “I.D.” Card permits reduced entry into museums and other Cultural Centers.

Insurance

In order to obtain your residence permit (“Carte de Séjour”), you must produce proof that you are either **covered by the French Social Security system or that you have arranged for individual medical coverage**. This is called “couverture sociale”. The documentation required is a certificate from the insurance company which sets forth: – the company’s name and the fact it is an insurance company (“raison sociale”) – your name and civil status (“état civil”) – the duration of the insurance policy – the risks covered (your insurance policy must cover at least doctor and hospital bills).

BANKING

Students staying in France for more than 3 months are advised to open a bank account. Students staying for less than 3 months may open an account at a savings bank (Caisse d'Épargne) or at the Post Office (La Poste).

The savings banks have a large network of branches and most post offices have a banking service. Savings bank and post office accounts are managed in exactly the same way as accounts at commercial banks.

To open a bank account, students need to show the 3 following documents:

- Valid passport
- Carte de Séjour
- Student card or enrollment certificate
- Proof of address: telephone or electricity bill, rent receipt, “certificat d'hébergement” (official document stating that you are staying with a private resident, obtained by your French host from the local townhall “mairie”), etc.
- Approximately 10 days after opening the account, students receive a checkbook and/or a credit card. Checkbooks are usually free of charge. Credit cards, which are valid for two years, cost between € 15, 24 to 30, 50 per year, depending on the bank and the type of card.

Credit Cards

With any valid credit card, you can withdraw cash from any automated teller machine (ATM) at any bank, savings bank or post office (not necessarily the bank where you have your account). **ATMs are open 24 hours a day** and take several types of credit card (Visa, Eurocard, etc.).

Most shops accept payment by credit card for purchases above a minimum amount (usually € 15). There is usually a minimum purchase amount for checks as well. Each shop has its own policy, there are no fixed rules.

If you have an international credit

card, it is valid in most European countries, including France.

You can also use your credit card to make phone calls from **selected public telephone booths**.

If your credit card is lost or stolen, **call the 24-hour telephone number (given to you when you receive your card and indicated on all ATMs)** to make a stop-payment order.

This will normally prevent anyone from using your card. However, you should confirm the stop payment order in writing at your bank.

POSTAL SERVICE

The main function of the French Post Office (La Poste) is to convey letters (though La Poste also provides banking services, and you can open an account there). Letters for destinations within France usually arrive the next day, for EU countries 2-4 days and for USA up to 7 days.

In many post offices, you will find automatic stamp machines, telephone booths and photocopiers.

Postcodes

An essential part of all addresses in France is the five-digit postcode that identifies the commune. The postcode immediately precedes the name of the town or village, on the last line of the address for all mail within France.

The first 2 digits of the postcode indicate the number of the department; and the last 3 digits identify the commune (for example, 56470 is the postcode for the town of La Trinité-sur-Mer in department number 56, i.e. Le Morbihan). For large cities with arrondissements -districts- like Paris, the last 2 digits of the postcode indicate the arrondissement; for example: 75006 PARIS means “Paris, 6ème arrondissement”. Post offices are usually open from 8 am to 7pm Monday to Friday and from 8am to 12pm on Saturday.

Exact hours may vary from office to office. In Paris, the post office on Rue du Louvre (2ème arrondissement) is open 7/24.

Office Hours: Monday to Friday 8:00 to 19:00
Saturday 8:00-12:00

POLICE

Lost and Stolen Property

All thefts and major losses should be reported to the police as soon as possible. Each of Paris twenty districts (arrondissements) has three or four police stations (commissariats); train stations also have one. You should go to the one which has jurisdiction over the area where the theft or loss occurred unless you were robbed in the subway.

In that case, you can go to any police station including **the one located near the American Embassy at 31, rue d'Anjou 75008 Paris (phone: 01 42 65 23 13).** The police will give you a "cépissé de déclaration de perte ou de vol" (receipt for declaration of loss or theft).

If you have **lost your passport**, identification documents and other papers as well as personal effects, you will receive separate receipts, one for your papers

(pieces d'identité) and one for your valuables.

The report must be made in person. The police will not accept a report by telephone or from someone else on your behalf. Most police stations have English-speaking personnel; if you have difficulty making yourself understood in English, call the Embassy's Office of American Services (phone no.: 01 43 12 45 18) to obtain a translator to help you.

While it is unlikely that the thieves will be arrested as a result, **it is important that you report this to the police.** The police receipt is helpful and sometimes necessary in applying for the replacement of airlines tickets, EURAIL passes, passports, traveler's checks, etc. It is also useful for supporting insurance claims.

How to replace certain lost or stolen items

Airline Tickets

Report the loss or theft immediately to the Paris office of the airline company. **It is left to the discretion of each airline company whether or not to replace a ticket.** In any case, replacement tickets are issued only after verification of the initial purchase of the tickets has been obtained by telex from the airline's home office. **Credit Cards Notify the Paris office of the issuing firm immediately.**

EMERGENCIES

In extreme cases which require immediate hospitalization or are life threatening, Ambulances de l'Assistance publique (**01 43 78 26 26**) will ensure the rapid transport of any sick person to the nearest French hospital. You can also call the SAMU at **01 45 67 50 50**

For transportation to the American Hospital, call the hospital at **01 46 41 25 25**.

Health Care

Students are required to carry their own health and accident insurance ("couverture sociale") or be covered by the French Social Security system. Coverage is required from the date of their departure from their country of residence until their return.

All EU citizens staying in France must obtain the form E111 before leaving their country. They are entitled to use the French Social Security system, which refunds up to 70% of medical expenses. Nationals of non-EU countries should take out health insurance before leaving home. **Consultations and prescriptions have to be paid for in full, and are reimbursed, in part, on receipt of a completed form.**

If students undergo treatment while in France, the doctor will give them a prescription and a feuille de soins (statement of treatment). The doctor's consultation fee is about 30 Euros for a general practitioner ("médecin généraliste") and as of 80 Euros for a specialist. The medication will carry vignettes (little stickers) which you must stick onto your feuille de soins. Send this, the prescription and form E111, to the local Caisse Primaire d'Assurance Maladie (CPAM, in the phone book under Sécurité Sociale). Refunds can take over a month.

Travel adapters are great for when you need to charge your phone, laptop/tablet when you do not have the same power outlet specifications, but **you should not use a travel adapter for appliances such as a hair dryer.** For this it would be better to buy the appliance in Germany that has the correct power outlet specifications.

GUIDE TO TAMPA -TRANSPORTATION

Owning a Car

For many students owning a car brings **many advantages**. Owning a car could be extremely convenient, permit you to take trips that otherwise would be impossible and making traveling to the campus and recreational activities easier.

There are also significant responsibilities and obligations. As an international student you need to be sure you **learn about the US Federal laws** and the state laws that pertain to owning a car and driving in Florida.

New Car

Although a new car will most likely give you fewer problems than a used one, it will also prove to be more expensive. **If you buy a new car and sell it 12 months later, you can expect to face a rather substantial loss.**

Used Car

While there is some risk in buying a used car, **its value decreases far less** than that of a new car over the same period. However, if you are fortunate to find a good one, you will have dependable transportation.

[See Car Dealer List](#)

*Schiller International University does not endorse and/or recommend any specific website and/or business. Although you may save money buying directly from an owner, we would suggest that you consider purchasing your car from a reputable dealer who will give you a full guarantee on the car. Thus, if anything goes wrong, the dealer will repair it potentially at a minimal cost to you.

Car Insurance

With International Driver's License or Origin Driver's License

International students who want to drive a car while attending a college or University in the United States will have to purchase an **International Auto Insurance policy**.

Most major insurance agencies, such as **Geico*** or **State Farm*** offer auto insurance for international students who have obtained an international driver's license from their country of origin and show it the insurance agent handling their policy.

The amount of a short-term policy for someone who is not an American citizen could be costly since the insurer does not know anything about the applicant's prior driving record.

*Schiller International University does not endorse and/or recommend any specific website and/or business.

With Local Driver's License

State of Florida law requires all automobile owners to have car insurance with **a minimum of at least Personal Injury Protection (PIP) and property damage**. Florida has a "no-fault" insurance law; it is your responsibility to get informed regarding the insurance laws and regulation, property damage insurance, liability insurance, collision insurance, and comprehensive insurance.

Many private companies offer automobile insurance at different rates. Insurance rates vary with the company; these depend on the value of the car, the age of the driver, and past driving records of the driver. There are a number of different insurance policy options available to help you get the complete auto insurance coverage you need.

Insurance policy options

- Geico
- Allstate
- State Farm
- Esurance
- Amica
- USAA Auto Insurance
- American Family Auto Insurance
- Liberty Mutual
- Progressive
- AAA

*Schiller International University does not endorse and/or recommend any specific website and/or business. Failure to have the minimum insurance requirement is against the law, and leads to fines, possible imprisonment, and having your driver's license revoked or suspended.

Car Registration

- Visit a Florida DMV (Department of Motor Vehicles) office.
- Bring your title, proof of ID, and car insurance card.
- Have the VIN (Vehicle Identification Number) and odometer reading handy.
- Pay your initial vehicle registration fee, title fees, plate fees, and taxes.

The DMV Test

For individuals that have their country's Driver's License

Drivers who hold only international driver's licenses, or who move to Florida and will drive a car or moped, must obtain a Florida State driver's license **within 30 days of arriving in Florida** issued by the Florida Department of Highway Safety Motor Vehicles (DMV). Drivers who receive a driver license for the first time must take a written test, a road test, and a vision test.

Florida Non-immigrants renewing or applying for a new driver license or identification card will be required to submit:

- Primary identification document –valid passport
- F-1 and M-1 classification must be accompanied by an I-20
- Two proofs of residential address (i.e. lease, utility bills, etc.)
- Original Driver's License (for their country)
- Form I-94 which can be downloaded online

For individuals that don't have their country's Driver's License

All drivers getting their first driver's license in Florida are **required to complete certain steps by Florida Law**. The DMV Test (also known as the Permit Test) is now being offered online.
